

Job Description

Job Title:	Regulatory Supervision Manager
Department:	Operations
Reporting to:	Director of Finance and Operations

Background

The **Council for Licensed Conveyancers (CLC)** is the specialist property law regulator. We are entering an exciting period of growth and we are recruiting to rewarding roles at the front line of consumer protection.

Our **Regulatory Supervision Managers** stand at the centre of our high performing and collaborative team. They work closely with the varied businesses that we regulate to maintain the high standards for which we are known. We are now looking to appoint up to three more Regulatory Supervision Managers so that we can continue our unique, high-touch approach to assisted compliance as we grow.

Reporting to the Director of Finance and Operations, you will join a close-knit team of specialists each of whom is responsible for delivering the CLC's **monitoring & inspection program**, offering support, analysis and challenge to their regulated community. Where necessary, you will also be taking direct regulatory action and preparing disciplinary cases for adjudication by an independent panel.

These are important roles at the heart of the CLC, shaping the delivery, direction and future of our work at a key point in our journey. The CLC regulates over 200 legal practices across the UK to protect consumers and foster competition and innovation in the provision of legal services. We take a collaborative and relationship-based approach to regulation, built on close engagement with the firms we regulate.

The salary range is £40,000 to £50,000 (commensurate with experience).

Person Specification

These roles are likely to suit people with regulatory, inspection and compliance backgrounds.

To be successful in this role you need to have strong critical thinking, a thorough approach and ability to build long-lasting relationships. The role requires someone who is excited to learn, has good communication skills, and the ability to deliver sometimes difficult information appropriately.

Building on your Legal / regulatory / compliance background you will also need strong emotional intelligence to effectively engage, challenge, negotiate and influence legal practices and colleagues

This is a small team so there is plenty of opportunity to shine while still demonstrating a

collaborative, agile approach.
